Strawberry Jalapeño Jam

source: <https://www.food.com/recipe/strawberry-jalapeño-jam-474371>, servings: 8 half pints approx, prep-time: 40 mins, cook-time: 20 minutes, ready-in: 1 hour

Ingredients

- 4 cups crushed strawberries (discarded stems and leaves), or 4 cups blended pears for pear jalapeño jam
- 1 cup jalapeño pepper (processed in food processor)
- 1/4 cup lemon juice
- 1 (1 3/4 ounce) package powdered fruit pectin
- 7 cups granulated sugar (yes this is the right amount...it's jelly!)

Directions

1. Sterilize eight half pint canning jars with lids and rings, boiling for at least 5 minutes and kept hot.
2. Place the crushed strawberries (do not chop in a food processor; the texture will be too fine and choppy), processed jalapeño pepper, lemon juice and pectin into a large, heavy-bottomed saucepan; stir in the sugar to dissolve. Rapidly bring to a boil over high heat (long, slow boiling destroys the pectin). Once at a full rolling boil, cook for 1 full minute. One half teaspoon butter may be added to keep down the foam, if desired. Letting this mixture sit for about 5 minutes discourages the fruit from separating.
3. Pack the jam into the hot, sterilized jars, filling the jars to within 1/4 inch of the top. Run a knife or a thin spatula around the insides of the jars after they have been filled to remove any air bubbles. Wipe the rims of the jars with a moist paper towel to remove any food residue. Top with lids and screw on rings.
4. Process 10 minutes in a boiling water canner. Remove the jars and place onto a cloth-covered or heat-resistant surface. (While cooling,

Boston Cream Doughnuts

source: <https://cooking.nytimes.com/recipes/1017066-boston-cr>, servings: 12-20 Doughnuts, ready-in: About 3 hours, mostly unattended

Ingredients

- 1 1/2 cups milk
- 2 1/2 teaspoons (one package) active dry yeast
- 2 eggs
- 8 tablespoons (1 stick) butter, melted and cooled
- 1/2 cup granulated sugar
- 1 teaspoon salt
- 4 1/2 cups all-purpose flour, plus more for rolling out the dough
- 2 quarts neutral oil, for frying, plus more for the bowl

Directions

1. Warm milk to ~90F, combine with yeast and sugar in a bowl. Stir and let sit until foamy.
2. Beat eggs, butter, and salt into yeast mixture. Slowly add flour and beat with dough hook. Once the dough forms a ball, knead on a floured surface. Transfer to a greased bowl, cover and let rise for 1 hour.
3. Roll dough to 1/2 inch on a floured surface. Cut to shape with a glass. Knead scraps together and repeat.
4. Transfer to floured baking sheets and cover to rise, leave room between them. If the kitchen isn't warm enough, warm oven slightly to rise for another 45 minutes.
5. Start heating oil to 375F 15 minutes before rising finishes. Prepare cooling rack or paper towels.
6. Add doughnuts to oil in batches, pick them up with a metal spatula if needed. Cook until golden and remove to rack.
7. For the glaze, whisk together 1 3/4 cups powdered sugar, 1/4 cup unsweetened cocoa powder, 1/4 cup milk and 1 teaspoon vanilla until smooth. Dip the tops of the doughnuts in the glaze, and let it harden

on a rack.

8. For cream filling, combine 2/3 cup sugar, 2 tablespoons flour, 2 tablespoons cornstarch and a pinch of salt in a small saucepan. Over medium heat, whisk in 2 eggs and 2 cups cream. Continue cooking, whisking almost constantly, until the mixture just begins to boil and thickens, about 10 minutes. Adjust the heat so the mixture bubbles gently; cook until it coats the back of a spoon (when you draw your finger through this coating, the resulting line should hold its shape). Stir in 2 tablespoons softened unsalted butter and 2 teaspoons vanilla. Strain through a fine-mesh sieve, and cool to room temperature before using.
9. Fill doughnuts with pastry bag. You can make a cavity inside using a chopstick.
